

Thanks for purchasing our **Art Room Behavior Chart**. This art resource works well for students in a K-5 art room. Visit www.artforthecreatesoul.com to find more great resources.

This resource includes:

- **Templates for Student Numbers** (Print as many as you need. Cut out and write numbers on them. Laminate and tape each number to the end of a paper clip)
- **8.5" x 14" Art Room Behavior Chart** (Print on a color inkjet printer. Cut out, glue together, mount on railroad board and laminate for durability.)

Use this chart to help students stay on task in the art room. Assign each student in each class a number from 1-20 (or higher). Move each student's number up and down the chart as it relates to each student's behavior.
